

## Java 库中的具体集合

Arraylist : Auto increase or decrease  
index sequence

Linked List : effectively insert or  
delete at any position  
sequence

Array Deque : loop array deque

Hash set : disorder set  
without repeat item

Treeset : order set

Enum Set : enum set

Linked Hash Set : remember element insert  
order set

Priority Queue : effectively delet the  
most small element set

Hash Map : store key/value

Tree Map : order key/value

Enum Map

Linked Hash Map

Weak Hash Map

Identity Hash Map
